

JOB OPENING

Field Service Mechanic

Sudden Service, Inc. - Mobile, AL

Job Location: Alabama and Mississippi Coast

Job Responsibilities:

1. Consults with Warehouse Supervisor or Service Supervisor to plan effective work and travel schedule, giving priority to customer need, considering location of machine and availability of parts.
2. Diagnoses malfunctions; repairs and/or replaces worn and defective parts; installs new assemblies, adjusts devices and controls - to correct malfunctions and to keep machines in operating condition.
3. Provides tools and parts and arranges for facilities to perform repair work (usually in customer premises).
4. Inspects, operates and tests machine upon initial delivery, at specified inspection intervals and upon completion of any repair work to ensure proper functioning of equipment and its components.
5. Reports to Warehouse Supervisor such information as name of customer, description of machine, nature of malfunction, the time involved in working, driving, and waiting, mileage, etc. so that proper accounts can be charged and proper billing can be made.
6. Strives to increase technical skills through attendance at company-sponsored vocational schools, annual training meetings of departmental personnel and reading of technical literature.
7. Promotes and enhances company image by maintaining a neat, personal appearance and by keeping the service truck in a clean, polished, and orderly condition.
8. Experienced or advanced servicemen are expected to serve as troubleshooters on recurring or unusual problems, conferring with Engineering, Manufacturing, and other service personnel to resolve.
9. Experienced servicemen will be expected to train new servicemen or to supervise a team of servicemen in the assembling or servicing of large units or in a joint effort on large repair jobs.

Job Requirements:

- High School Education or GED equivalent.
- Some vocational or formal schooling in hydraulics and diesel engine repair.
- Must have three years on the job experience in diesel mechanics and hydraulics. Schooling in these fields could substitute for some of the job experience.
- Must be able to read and interpret blueprints and other technical material.
- Job requires stooping, bending, climbing, and capability of lifting up to 50 pounds. May occasionally be required to lift up to 60 pounds.
- Must have valid driver's license and good driving records to be insurable by corporate insurance carrier.
- Required on occasion to stay overnight at out of town locations.
